## Daikin - THE FACTORY OF THE FUTURE AWARD

---

The Factory of the Future award is presented by "Made Different", a joint organisation that promotes the future of manufacturing in Belgium.

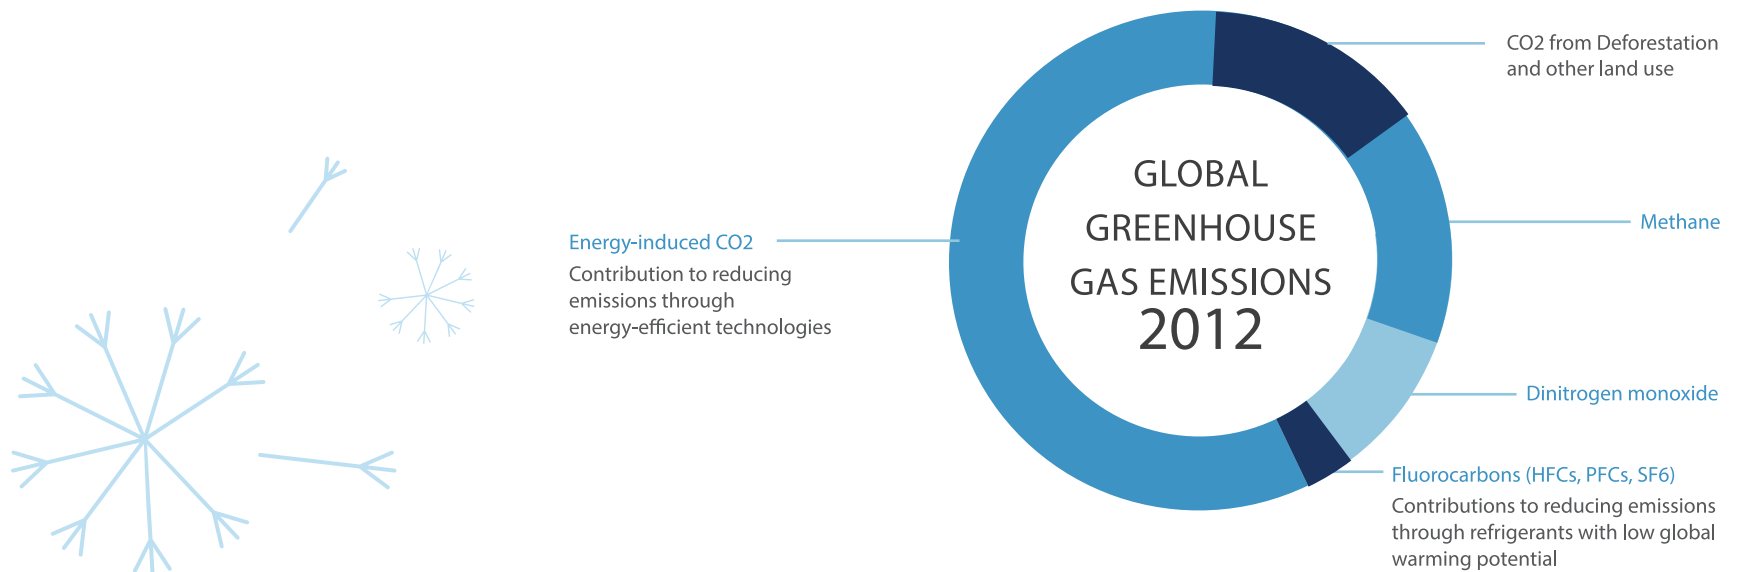

## Environmental VISION 2050

Daikin formulated Environmental vision 2050, the aim of which is to contribute to solving increasingly serious global environmental problems over the long term. With the aim of reducing to zero the CO2 emissions caused by our business activities and our products and services, we set targets and implement measures every five years under our fusion strategic management plans. We will reduce the CO2 emissions generated throughout the entire life cycle of our products.

Furthermore, we will create solutions that link society and customers as we work with stakeholders to reduce CO2 emissions to zero.

Using IoT and AI and open solutions, we will meet the world's needs for air solutions by providing safe and healthy air environments while at the same time contributing to solving global environmental problems.
