

Daikin Factsheet

Manufacturing Sites in the EMEA Region

Daikin operates 15 HVAC-R manufacturing sites across the EMEA region. Of these, **12 are located in Europe, one in Türkiye and two in the Middle East.** As a leading provider of heating, cooling, ventilation, air purification and refrigeration technologies across Europe, the Middle East, and Africa, Daikin Europe employs over 13,800 people across over 56 subsidiaries.

The company serves a broad and diverse customer base by designing, manufacturing, and marketing an extensive portfolio of products, maintenance services, and turnkey solutions for residential, commercial, and industrial applications. Daikin Europe’s refrigeration business includes the brands Daikin, AHT, Zanotti, Hubbard, and Tewis. Headquartered in Ostend, Belgium, Daikin Europe has been active in the region for over 50 years and operates as a subsidiary of Daikin Industries, Ltd.

Daikin's European manufacturing footprint is complemented by research and development facilities located at key manufacturing sites across the continent, in addition to the **Daikin Europe Research and Development Center, a global centre for heat pump and refrigeration technology** established in Ghent, Belgium, in 2025.

About

100+ years Daikin

The story of Daikin has always been shaped by groundbreaking ideas, technological innovations, and dedicated people. It began in 1924 when the young Japanese engineer Akira Yamada founded an enterprise in Osaka to manufacture aircraft radiators with a 15-member team. More than 100 years later, the Daikin Industries group brings **future-proof solutions for heating, cooling, ventilation, air purification, and refrigeration (HVAC-R) to global markets**. 103,500 employees in 173 countries continue the company's legacy of leading technologies to advance low carbon heating and cooling, while ensuring the highest level of comfort.
