

Daikin AR experience

How to use the Daikin AR experience app?

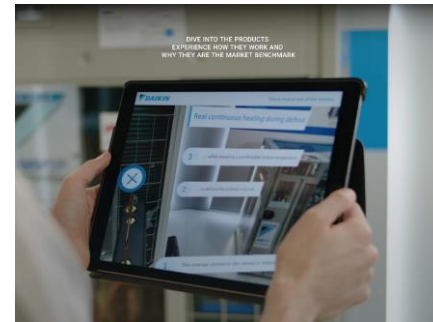

- Download the Daikin AR experience app from the itunes store

In case no real showroom unit is available:

- Scan any surface (floor, table, ..) and position the Daikin unit to experience the augmented reality

In case of showroom units:

- Block free-placement mode by tapping 7 times on the Daikin logo
- Print the the marker which you can find on www.daikin.eu/AR
 - The marker should be printed at exactly 26x26cm
- Put the marker on the unit (see next slides for more details)
- Scan the marker with your device to find out more about our products
 - An iPad PRO is recommended for the best experience

Marker placement – RYYQ8-12U VRV IV+ outdoor

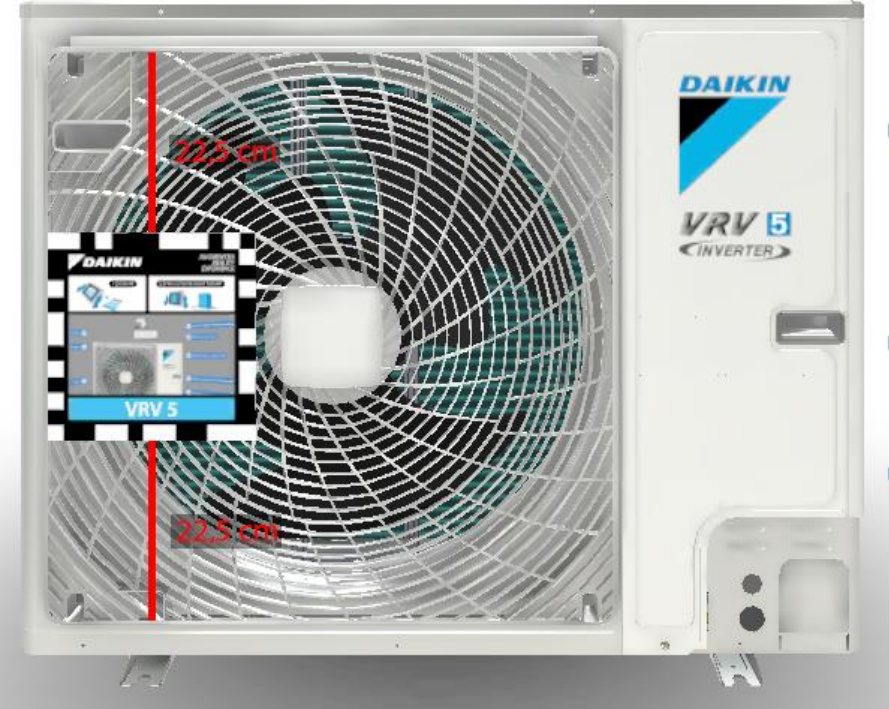

On the edges

Marker placement – VAM350J ventilation unit

Top right corner

Marker placement – VRV 5

Protect your iPad

In public areas you can add an anti theft mechanism to your device, which also acts as a charger.

We use devices from www.invue.com

DAIKIN AUGMENTED REALITY EXPERIENCE

1. Take the iPad and scan the image on the unit
2. Find out more about the unit by moving around it

This iPad has an anti-theft mechanism, please stay close to the AR units
